

Sprint 3: Internal Project Check-in Meeting

- **What has the team accomplished since the last time you met with the instructional team?**
 - Sprint 3: Project Plan
 - 4/3 Meeting with Cedric Nwafor
 - Mid-Semester Presentation
- **What is the team hoping to accomplish in the next two week sprint?**
 - Creating the dashboard on powerbi
 - Generating dummy data as a placeholder for creating the dashboard
 - Brainstorm best ways to visually display data to help the community, farmers and donors
 - Hoping to receive more survey data in the coming weeks
 - Schedule another meeting this week for project updates and questions
- **What barriers or challenges has the team encountered?**
 - Trying to generate dummy data
 - Delay in receiving essential survey data from the client which is hindering our project progress

Client: Roots Africa Data Dashboard

GitHub Branch 3: <https://github.com/rbang410/RootsAfricaDataDB/tree/Branch-3>

The screenshot shows a GitHub repository page for 'rbang410 / RootsAfricaDataDB'. The file 'Sprint 3_ Project Plan.pdf' is selected, showing its content. The PDF content includes a project plan for 'Roots Africa Dashboard - 2-Week Project Plan (Sprint 3)'. The plan lists team members, client, project, and timeframe. It also includes a section for 'Week 1 (March 25–31): Foundation and Early Engagement' with a table header for Task, Owner(s), Deadline, and Notes.
