

Sprint 5: Internal Project Check-in Meeting

- **What has the team accomplished since the last time you met with the instructional team?**
 - Sprint 5: Project Plan
 - 4/25 Meeting with Cedric Nwafor
 - Pivoted our dashboard from Google Looker Studio to Tableau
- **What is the team hoping to accomplish in next week's sprint?**
 - Finalizing our dashboard on Google Looker Studio so that our dashboard possesses all the content our client needs
 - Ensuring our dashboard displays data that is visually appealing to help our client
 - Schedule another meeting this week for project updates and questions to our client
- **What barriers or challenges has the team encountered?**
 - It was very difficult to collaborate on Tableau simultaneously so our team pivoted to Google Looker Studio.
 - Scheduling meetings with the client has been a challenge due to conflicting time schedules.

Client: Roots Africa Data Dashboard
